

## STIR FANS

AVAILABLE FROM 18", 20", 24", 36"

**Normal Wall Fan:**

**CURVED BLADES**

AIR IS BLOWN STRAIGHT OUT AND CONCENTRATED

**Stir Fan:**

**SQUARE BLADES**

AIR MOVES FROM THE CENTER TO THE SIDES FOR BETTER CIRCULATION

### FEATURES

- Cooling for dairy, poultry, swine, and other livestock applications.
- Stir fans provide consistent airflow and circulation within the building to maintain an optimal environment, preventing heat stress and improving air quality.
- Designed to distribute air evenly throughout a large area.
- Creates a gentle, widespread air movement within the entire space, preventing stagnant areas and providing consistent ventilation.
- Quiet operation to minimize stress on animals.
- Easy to use rotary controls.
- Enclosed motor prevents dirt and particle build-up for longer motor life.
